*If you are a first-time beekeeper, please choose between an unmarked queen and a marked queen in your package. The main reason for a marked queen is to be able to spot the queen more quickly and to know if you still have the original queen. There is no difference to the hive if the queen is marked or unmarked. You will not need a clipped queen if you are just starting your beekeeping experience.

The number of packages are limited and filled on a first-payment-received basis. You can check the current availability of packages at www.pabeekeeper.com.
